Hi Karl

Nice hearing from you.

Indeed I'm so sorry we could not carry on with our exciting association endeavours but I do agree with you that there might be more interesting things out there.

Thank you so much for the below intro .

I do agree with you that such experience will definitely fit in with the segmentation of our targeted clientele.

In fact I'm very interested if we could organise a meeting either in London or in Geneva but sooner rather than later as we are finalising all our prototypes.

Should I call you later?

Best Regards
