

Hi Alessandra,

Was a pleasure to meet Adam, Jay and yourself last night and dinner was very enjoyable.

Following up on the proposed agenda for October, please note the following:

- Luca Pronzati, Chief Business Innovation officer (in CC) will contact you about a pre project concerning our robotic barman (we discussed briefly).
- On Wednesday 16th October, we would like to invite you to our London office to join our new building meetings with Mr Vago and pitch your ideas for our robotic barman.
- Wednesday 16th evening we will fly with Mr Vago to St Nazaire, France (shipyard) to stay onboard and to tour the Grandiosa (that will be delivered on the 31st October)
- Thursday 17th October we will present the aft lounge of Grandiosa which has the same footprint as the aft lounge of Meraviglia 5. This is the lounge Mr Vago would like your inspiration on as discussed.

Please let me know if this schedule works for you.

Mr Onorato and Mr Gangale will contact you separately about the other ideas discussed.

Thanks and look forward to hearing from you.
